

## The Home Office Helper

### When Destroying Data is a Good Thing!

Volume 1, Issue 12, February, 2005

Have you recently purchased a new system? Donating the old one to a school, charity, friend or family member? Think that by deleting your files and applications that the new owners won't be able to access them? Wrong! There are software and hardware tools available to recover almost any deleted file. That's where "wiping" software comes in! Find out who makes it, how to use it and more here!

[More Details](#)

### Hot Hardware!

Thinking about going one step beyond that IP phone service? Check out D-Link's Express Ethernet Broadband Desktop VideoPhone and add image to that IP phone call!

**blink**

Do you think you responding to a situation "without thinking". Maybe that wasn't REALLY the case. Check out how it works when you "think without thinking".
