

The Home Office Helper

System Security—It's "Physical" Too!

Volume 1, Issue 13 March, 2005

At home or on the road—don't ignore the "physical" aspects of system security! You CAN protect, or at least make it hard—for the "bad guys" to take your notebook or desktop and its valuable information away from you and your business. Check out some of the simple, inexpensive ways to enhance the physical security of your systems here.
